## Geoconservation and Geopark Talk to Rotary Club of Tsimshatsui

From Bio to Geo: the Birth of Hong Kong National Geopark  
November 23, 2009

AGHK chairman, Mr. Young Ng was invited by the president of Rotary Club of Tsimshatsui, Ms. Agnes Lau, to present a talk to its members on Hong Kong National Geopark. The luncheon talk attracted a large attendance including its past president Mr. Raymond Lee (2002-2003). Mr. Ng presented the basic concepts of geodiversity、geoconservation and geopark. It was followed by a brief introduction to the objectives, planning and management of the Hong Kong National Geopark. After the interesting presentation, questions such as territory demarcation、visitor control、route design and accessibility were raised by the floor. Mr. Ng addressed all these questions in details. The members were extremely pleased to work together with AGHK in any future geoconservation activities.

本會主席吳振揚先生應尖沙咀扶輪社劉令茵主席邀請出席午餐演說，為該社會員介紹香港國家地質公園。

是次午餐演說吸引了不少會員包括前會長Mr. Raymond Lee。吳主席解釋了3Gs-地質多樣性（geodiversity）、地質保育（geoconservation）與地質公園（geopark）的概念，還介紹成立香港國家地質公園的目的、計劃及管理。於答問時間中，各會員提出了很多疑問，包括地質公園範圍的界定、人流控制、路線設計、及如何遊覽等問題，而吳主席也一一詳盡解答。

演說後，該會會員希望與本會將來有更多地貌岩石保育合作的活動。

Audiences were amazed by the stunning geological features of Hong Kong

參加者對於香港奇特的地貌深表讚嘆
