簡介：

本書以三種不同語言介紹香港 12 條賞石路線，包括了多種不同地質景貌，作者花了很多筆墨解說那些傳奇地貌的前因後果，希望讀者明白奇形怪狀的地理結構為何產生，再親臨其境，就多了一個欣賞體驗的角度。

This book presents 12 routes for studying landmarks. Together they represent a wide cross section of Hong Kong terrain features. It also takes you on an eye-opening journey. Standing witness to infinite passage of time, these pillars are products of planet Earth's natural forces. Understanding how these outlandish rocks came to being, you can appreciate them from an alternative perspective on your next visit.
